

Equipping Believers with Answers - Bob and Lois Gillespie Gillespie Greetings - March 2015

There are many exciting things going on at Answers in Genesis lately, not the least of which is the full-scale Ark being built in Williamstown, Kentucky. People all over the world are eagerly waiting for the grand opening next summer. This ark will be an amazing evangelistic tool for so many who would never step into a church. You can follow the progress through videos at www.arkencounter.com. Here you can also stay informed about how Answers in Genesis is working to protect our religious freedoms.

We are finishing our 5th year with Answers in Genesis in May, and we want to thank all of you for your prayers and support through the years. We have been traveling from Florida to Michigan, and from the Mississippi to the DC area, sharing the message of the truth and authority of the scripture. We have been in universities, high schools, camps and all kinds of churches, and the message is well received.

Why is the message of Answers in Genesis so well received today? We know that believers want to believe all of scripture; the Holy Spirit tells them to. However, we live in a culture with so much pressure to the contrary. We start with Scripture as our absolute authority, for we believe all of it. Furthermore, if the events as recorded in Genesis really did happen, we would expect real observational science to bear these things out, and it does. People are eager to hear this message in this scoffing and skeptical age.

The book of Genesis is the foundation for all of our morality and doctrines. Without these literal events, all we have is opinion based on our

subjective experience. Scripture is being undermined from all corners of our culture, including much of the church; but we have an objective authority, directly from our Creator. There is no need to be ashamed. Instead, we need to call the church and the culture back to the Truth in God's Word.

For those of you who continue to support us financially, we want you to know that you are very important to our ministry. We are able to stay so busy because your support helps keep the cost of a conference within an affordable range. Thank you for your faithfulness in this matter and for your prayers. One dear couple from Florida texts us just before each conference to tell us they are praying for us.

KEEPING YOU INFORMED

We want you to know where we are and what we're doing. To communicate that information, we've provided the following:

- **Webpage** - www.gillespiesonline.com. Read our quarterly Gillespie Greetings. Scroll to the bottom of any page and click to see our upcoming schedule or where we have been in the past 5 years.
- **Bob's Facebook** - Click on the FB link at the bottom of any website page above; this links to my Facebook page with pictures and updates on each conference.

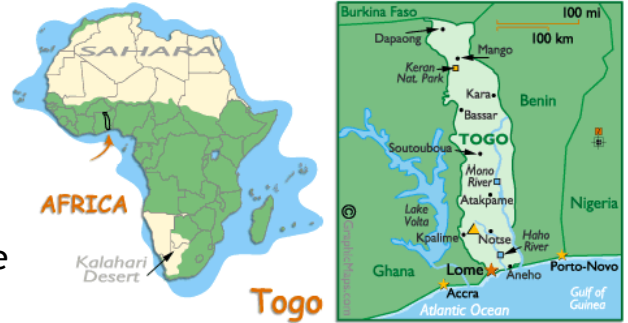

WE WANT YOU TO KNOW!

Please check us out at www.gillespiesonline.com or www.answersingenesis.org.

Every family that purchases two full-priced adult General Admission tickets in 2015 will receive two free admissions of equal or lesser value.

This August, we may have an opportunity to minister in Togo, West Africa, at a family conference. This is only in the planning stages at this time, and we would appreciate your prayers regarding this. Also consider a onetime gift to help with our passage. We will send more information as the details become clear.

While talking to a family with 4 teenage daughters who had just visited the Creation Museum, I asked them what their favorite exhibit was. All 4 girls quickly said that they loved Dr. Crawley's Insectorium. Having lived in West Africa where the bugs are really big, I really do not understand how anyone can love looking at insects the size of rats even if they are mounted!

But kids do love bugs! In fact, one of the best sellers on our Resource Table lately is this book entitled Bugs. In these vivid, full-color pages children will discover God's purpose for creating insects. With their alluring beauty, incredible design features, and limitless variety, bugs are a living testament to our all-wise, wonderful Creator.

You can find this book as well as many other resources at <http://answersingenesis.org>.

Conference Testimony: We were delighted to have Bob Gillespie in our church for a one day Answers in Genesis seminar (Feb. 8, 2015). His style of ministry connected with a vast age span in our church. His material was both challenging in depth but understandable, which is a real gift in a speaker. Our people really enjoyed his ministry and I would heartily recommend him and his dear wife as valuable resources in arming the church for the culture war. They also have such a servant's spirit that I consider as equally valuable to a church. **Senior Pastor Jim Stultz, Peace River Baptist Church, Punta Gorda, Florida**
